EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. William L. Brooks on July 26, 2005.

The application has been amended as follows:

In claim 1, line 19, after outer conductor,", --and wherein a distance between the input and output electrodes is set such that one attenuation pole appears at a low frequency side of the pass band, and a width and depth of the groove are set such that two attenuation poles appear at a high frequency side of the pass band—has been inserted;

line 20, "to thereby allow one pass band and three attenuation poles to appear" has been deleted; and

Claim 5 has been cancelled.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The newly added limitation, "wherein a distance between the input and output electrodes is set such that one attenuation pole appears at a low frequency side of the pass band, and a width and depth of the groove are set such that two attenuation poles appear at a high frequency side of the pass band" in claim 1 is not shown or suggested by Tada et al.

(US '555), Sokola (US '193), Hiroshima et al. (US '767) or Ishikawa et al. (US '208) references.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Seungsook Ham whose telephone number is (571) 272-2405. The examiner can normally be reached on Monday-Thursday, 8:00AM-5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert Pascal can be reached on (571)-272-1769. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
